

Feeling Called Love

Wire

What is this feeling called love?
What is this crazy scene I can't work out anyhow?
What is this feeling called love?
What is this crazy thing I can't explain anyhow? Maybe I should try it now
Or maybe I should be shy of it now, now, now, now, now
'Cause there's nothing you know that can explain it
And there's nothing you know that's worth the pain of it What is this feeling called love?
What is this crazy thing I can't work out no how?
What is this feeling called love?
What is this crazy thing I don't understand no how?
Give me love, give me love, give me love, no no no love
