

# You're A Star (interlude)

[Amerie](#)

You make me feel real good  
And it's too good to be true  
'Cause I can't seem to get enough  
I'd do anything just to have your love  
I can't get away from you

You make me feel real good  
You should be here with me  
You make me feel so good  
This is where you need to be

You must be the endless thing around  
Yes, you are, you are  
Heaven lost a star when you came down  
You're a star, yes, you are, you're a star

You should be here with me  
You should be here

---
