Silence

Seal

Silence is cruel and bright
When you've been up all night
Another lonely scene
Watching' it pass us bySilence can't be any louder
When you're gone
How can it be any louder
When you're gone?I have this need for love
When dreamin' is not enough
Baby, it's 3 in the morning
And sleepin' is not easySilence can't be any louder
When you're gone
How can it be any louder
When you're gone?What do we do, what do we say?
How was your morning
And did you have a nice day?
What do we do, what do we say?If you need me
Don't you worry, love, I'll come home
(Will you call if you need me?)If you need me
Don't you worry, love, I'm comin' home
(It can't be any louder)If you need me
(Silence can't be any louder)
Don't you worry, love, I'm comin' home
(When you're gone)If you need me
(How can it be much louder)
Don't you worry, love, I'm comin' home
(When you're gone?)If you need me
(If you need me)
Don't you worry, love, I'll come home
(I will be standing there)(Yes, I will be there)
If you need me
(I will be there with my heart still beating)
Don't you worry, love, I'm comin' home
