Gurl (feat. Pyramid Vritra)

The Internet

[Matt Maritans]
Open the door
I look you in your face, realize I don't love you no more
You ask me why
Reoccurring thoughts of him are there
You'll never understand
You
You asked to be put on this level and I ignored you
And now I see
Human life's not too much in there
So the bong is where I stare[Chorus: Syd tha Kyd] [x2]
Girl. You know I love you, girl. You know I care[Syd tha Kyd]
Frank clouds
Seem to like to follow me around since I lost you
Ask me how
I could leave with something so small and unsure like I didn't love you anymore
But you
Pushed me to a level of insanity, I know
Now, all I ask
Is if I ever had a chance
Or were we never gonna last[Chorus: Syd tha Kyd] [x2]
Girl. You know I love you, girl. You know I care
