

California Son

Adolescents

Came to a point, do I laugh or cry?
Came to a point, do I quit or do I try?
I called out, do you even exist?
Why do you ask, came a voice from the missedLife's just begun
California son
Just have some fun
California son
Fun in the sun
California son
Go have some fun
California son
Life should be fun
I asked a priest about the mystery
Why this heart of darkness consumes me
Merciful mother, the misery
What have I done that he'd forsake me?
