

The Sun Doesn't Like You

[Norah Jones](#)

The sun doesn't like you, you always get burned
Stay in the shade and watch the world turn
Better find a new place to lay on the ground
Can't stay where you are or you're gonna be found And time won't pass you by and I
Won't tell you lies So tonight we can build a fire
In the open field past the razor wire
Sneak by the dogs when they go to sleep
Bring part of yourself that you'll let me keep 'Cause time won't pass us by and
Won't tell you lies
Someday I will ask you why but not now
