

# Jewels & Drugs

## Lady Gaga

[Verse 1: T.I.]

Still bank here, shawty, yeah you know what it is  
Pockets full of number of bands and bills  
Came up around that standard wheel  
Was finna do a deal about 60 mill  
You ain't live that life, you perpetrating  
You wasn't really trapping circling birds of prey  
You ain't have to beat no murder case  
Man, you probably couldn't get a ho any day  
'Round my way can't get murder planned  
Ain't no hoop, play dirty, man  
Put some through your jersey, man  
Your partner won't show we can do it again  
Okay, H-U-S-T-L-E G-A-N-G, yeah wait  
Yeah, pull up, pull up, hop out, hop out  
All about the dollar, better go ahead, Gaga...[Hook: Lady Gaga]  
Don't want your jewels, I want your drugs  
Don't want your money, want your love  
Don't want your jewels, I want your drugs  
Don't want your jewels, I want your drugs  
Don't want your money, want your love[Verse 2: Lady Gaga]

I admit that my habit is expensive  
And you may find it, quite offensive  
But I won't die at the hands of another  
I'm your mother, sister, father, brother  
This family is stupid attractive  
And you have seen [?] the way we've acted  
Keep it coming, I'm coming around like your friend now  
I think you should, should up and sit down[Hook][Verse 3: Too Short]  
Ey, everybody about that money, what she want?  
I'm high as hell trying to have some fucking fun  
I don't need 'em, but the diamonds make it shine  
Trying to quit it, but I can't find the time  
It's the middle of the week, this ain't even the weekend  
Red carpet event, every time you sink in  
It's good pussy in the passenger's set  
My little homies hang with me cause I be passing their friends  
Bitch![Bridge: Lady Gaga]  
Jewels and drugs, baby, hustle

Smother it up if you want to be bad  
Slap honey on your pancake  
We know how to make a lot of money  
Jewels and drugs, baby, hustle  
Smother it up if you want to be bad  
Ain't nothing if it ain't family  
We know how to make a lot of money[Beat Break]  
DJ White Shadow![Verse 4: Twista]  
Come and show me the gateway into your love  
I feel like a [?] I can do it like a glove  
I feel like a diamond, I can do it like a drug  
And I want us to come so I can show that I can hit it  
I can admit it, I am influenced by [?]  
Trying to provoke by giving money and jewelry  
In the sense of me instead of the recipe, I am a legacy  
Taking it to another level [?] when I get it  
Hold up  
Twista be going at warp speed breaking atoms  
[?] she got me creating antimatter  
Smoking with me, now I gotta be [?] ready to move the club  
[?] anomaly  
And I'mma be strange as Lady Gaga  
Probably [?] business, but I'd rather be in an outer dimension when I be talking about jewels and drugs[Bridge]
