Higher Places

Life Center

Verse 1
Lord my God, I seek you
To light my path, and guide my wondering heart
When guilt and shame, line my vision
Your voice reminds me

Chorus
I am precious in your heart
Honored in your side
For you love me, you'll always love me
So I will not be afraid, for you are always with me
A plan to end a purpose, been written for my life

Verse 2
Lord my god, I'll trust you
To chard this course, through vallies of shadows
Your hope breaks through clouds of fear
Your voice reminds me

Chorus(x2)
I am precious in your heart
Honored in your side
For you love me, you'll always love me
So I will not be afraid, for you are always with me
A plan to end a purpose been written for my life

Pre-Bridge
No more running from the path, chasing my regrets
no more face down in the dirt, from the weight of my failures
I don't have to navigate through pain, you said to mount up on wings
To run and not grow weary, to walk and not be faint
I can see a new horizon, I can see a new beginning
Fast approaching, it's fast approaching
And I can hear your spirit calling, and I can feel the winds are blowing
Of change, of change

Bridge
And you lift me up to higher places, the higher places on my
And you you lift me up, to higher places the higher places on my
And you you lift me up, to higher places the higher places on my

And you you lift me up, to higher places to higher places

Chorus
I am precious in your heart
Honored in your side
For you love me, you'll always love me
