

Love's Got Nothin' To Prove

Kenny Loggins

Love isn't just somethin' to try
No act of love can satisfy
You've got to believe it's live or die
To ask yourself the question
"How can love survive?"

And if we try and it don't work out
Like so many people do
It's just a fact of life, no we ain't in charge
There ain't nothin' that's wrong with me
Ain't nothin' that's wrong with you

Love's got nothin' to prove, it's not up to you
Two souls come into a world made
Of time and space, searchin' for the truth
With nothin' but love to prove
And find it in the gift of a moment of grace

Your heart is broken
'Cause your love was untrue
You're asking God
"Oh, why you?"

Oh, was it crazy
Givin' all of you?
You ask yourself the question
"What more could I do?"

And if we try and it don't work out
Like so many people do
It's just a fact of life, no we ain't in charge
There ain't nothin' that's wrong with me
Ain't nothin' that's wrong with you

Love's got nothin' to prove, it's not up to you
Two souls come into a world made
Of time and space, searchin' for the truth
With nothin' but love to prove
And find it in the gift of a moment of grace

There's always somebody to tell you how
You were a fool who just believed too much
But in the end, the fool
You'll come to know
Is not the one who loved
