My Hatred

Six Feet Under

I only kill when I can't keep them four days
And then I sleep them to the grave, that's right bitch, uh huh
You'll know I'm there when I follow, turn around, I'm behind you
I'm in the shadows close, so close, I've almost got youDoomed to the end, dead from the beginning
That's right, hear what the fuck I'm saying
I can't think straight, I'm gonna break, break downYou can't escape you're gonna die slow now
It's all a part of my master plan
Everyone ends up dead in the end, hell yeahWhat the fuck you gonna do now, huh?
Pray to a God that isn't there? No
Fall to your knees and die for me
I have the cure for your Christian diseaseI live this life to kill, homicidal
And now you lie dead with your Bible
Choke on your fucking cross motherfucker
I hope your soul is lost foreverNothing will change in me, nothing will ever change
Nothing will change in you, nothing will ever change
We're surviving on hatred, we're surviving on hate
Nothing will ever change my hatred
