

Power

David Phelps

Advisory - the following lyrics contain explicit language:

No mountains ever moved one inch at my command
No waters parted at my feet
Im just a witness to the wonders God can do
Through willing instruments like meAnd when my best seems insignificant and frail
He offers me the source of strength that cannot failPower, straight from the Father
Making me stronger
And I know its not my own
Power, straight from the Father
Love like no other, Ive ever knownThere are days when circumstances spin out of control
In ways I just cant understand
Its as if the best of my intentions have conspired
To reveal how powerless I amBut there is One whose voice alone
Brings me peace
And when on high, he hears my cry
He gives to meThis holy energy can save, redeem and heal
Like electricity, it flows through me and I can feel
