Distracted

I5

All the time
It's always on my mind
All the time
It's always on my mindThe things that are runnin'
Through this young girl's head
When I get up in the mornin'
When I'm goin' to bedWhen I'm drivin' in my car
When I'm talkin' on my cell
Crammin' for a final
When I'm watchin 'TRL'I think about love
I get distracted
When I think about hookin' up with you
It gets all my concentrationThink about ooh, ooh
I go preoccupied
You got me in a daze
I get distractedWhen I'm standin in a
Line at the ATM
When I'm stirrin' the sugar
In my Cafe Mocha blendWhen the radio is playin'
A song like this
I float away suddenly
Dreamin' of your kissI know it's crazy livin' in this fantasy
But I don't know
How to break this spell
You put on meTryin' to stay focussed on the things
I'm supposed to do
But before I know it
My attention's back on youI think about love
I get distracted
When I think about hookin' up with you
It gets all my concentrationThink about ooh, ooh
I go preoccupied
You got me in a daze
I get distracted, yeahDisconnected, yeah
Distracted, yeah
Can't help myself
You got me in a dazeI know it's crazy livin' in this fantasy
But I don't know
How to break this spell

You put on meTryin' to stay focussed on the things
I'm supposed to do
But before I know it
My attention's back on youI think about love
I get distracted
When I think about hookin' up with you
It gets all my concentrationThink about ooh, ooh
I go preoccupied
You got me in a daze
I get distracted, yeahDisconnected, yeah
Distracted, yeah
Can't help myself
Disconnected, yeahI think about love
I get distracted
When I think about hookin' up with you
It gets all my concentrationThink about ooh, ooh
I go preoccupied
You got me in a daze
I get distracted, yeahDisconnected, yeah
I get distracted
Disconnected, yeah
I get distracted
