

# Election Skank

## Silage

He once hired illegal aliens  
She was known for fraud and tax evasion  
He cost us over ten million jobs  
Her husband is a big drunken slob  
Chorus:  
Why do they think that we really care  
All about the junk that they try to scare  
Don't they have anything else to say  
Instead of slam on what other people say  
Campaign smut is on the air  
And do they think that we really care  
And I just want chicken and milk  
And he just wants chicken and milk  
He gets cash from special interest groups  
She wants to ban all prayer from school  
He supports capital punishment  
She picks a judge who was soft on criminals  
[Repeat Chorus]
