One Good Lover

Ratt

She's got the looks from picture books
Well, just a smile that's all it took
I wanna know why you do this
What you do to me, yeahShe's got the walk to make you sing
Just think of love, I just can't wait
I wanna know why you do those things
You do to me, yeahShe's one good lover, one to another
One good lover, made for each otherShe's got the style that drives me wild
Moves like a cat, scratched me like that
I wanna know why you do those things
You do to me, yeah, to me, yeahShe's got the push into something good
I know this rat's caught in her trap
I wanna know why you do those things
You do to me, yeahShe's one good love, one to another
One good lover, made for each other, yeah, yeahI only want to bring you closer to me
It's something we can see
I want to see you over me
You're the one for meShe's one good lover, one to another
One good lover, made for each other
She's one good lover, one to another
She's one good lover, made for each other
One good lover
