Hand In My Hand

Deer Tick

Everybody is alone in this world
Touches feeling close but never touching
And everyone is alone
So long as I'm awake
I'll never dream alone again
Everyone is rolling for themselves
She lives down Elk
I say its a ghost town
When she's not, not around
Everybody is alone in this world
Touches feeling close but never touching
When everyone is alone
She don't need a thing
All I can do is give

That is some touches
She don't understand
I'll take her hand (in my hand)
Again and again
Everybody is alone in this world
Touches feeling close but never touching
And everyone,
Everyone is alone
I take her hand
In my hand
Again and again
Everybody is alone in this world
Touches feeling close but never touching
And everyone is alone
