Don't Look Down

Martin Garrix

Is your head spinning?
Is your heart racing?
Is that fire in your veins?
Are your bones burning?
Is your skin yearning?
Cause you're driving me insaneI kinda feel like I, feel like I saw the light
You got me way up, a thousand miles
Can we stay right here in this atmosphere
Like we're flying in outer space?Don't look down
Up this high, we'll never hit the ground
Don't look down
See that sky, we're gonna reach it now
Do you feel the lightning inside of you?
Will you follow through if I fall for you?
Don't look down
Up this high, we'll never hit the ground[Beat break]Are your hands shaking?
Are your fists breaking?
Are you climbing all over the world?
Are the times changing?
Is the noise fading?
Cause I wanna get it outI kinda feel like I, feel like I saw the light
You got me way up, a thousand miles
Can we stay right here in this atmosphere
Or are you afraid to fall?Don't look down
Up this high, we'll never hit the ground
Don't look down
See that sky, we're gonna reach it now
Do you feel the lightning inside of you?
Will you follow through if I fall for you?
Don't look down
Up this high, we'll never hit the groundDon't look down
Up this high, we'll never hit the ground
Don't look down
See that sky, we're gonna reach it now
Do you feel the lightning inside of you?
Will you follow through if I fall for you?
Don't look down
Up this high, we'll never hit the ground[Beat break]Do you feel the lightning inside of you?
Will you follow through if I fall for you?

Don't look down
Up this high, we'll never hit the ground
