

Wildflower

Cee Lo Green

All it takes is the moonlight
And as long as the weathers fair
Reacts through a river
Romance by the evening air
A fragrance on the flesh
This is who she is, don't apologize
You are to awe her
But you'll only have be beautiful in the beholder's eye
Wonderful wildflower
Open up, let me see
Ooh, sexy hints in seasons
Share your sunshine with me
Oh, the picture is perfect
A keepsake 'cause the occasion's rare
It's a poetry in motion
I'm just proud to say that I was there
To pull her out of the ground
Standing out in the crowd, oh my, how she's grown
Hold her with both my hands
And put her right on the table when I get her home
Wonderful wildflower
Open up, let me see
Ooh, sexy hints in seasons
Share your sunshine with me
Show those pretty colors, baby
Show them all to everyone
Everybody's got a
Little light under the sun
Wonderful wildflower
Open up, let me see
Ooh, sexy hints in seasons
Share your sunshine with me
Wonderful wildflower
Open up, let me see
Ooh, sexy hints in seasons
Share your sunshine with me
