

Windmill Talent

The Flaws

i threw my things
it wasnt a trash day or a tuesday
i waslookiong at your face
with the flyers all over the place
so i, give in to you
each time every night
you'd win
i come in second
place it will be alrite on the night

cause im not taking part if i wont win
the windmill talent contest is looking for applicants.

look at what you've found
and im sure its great if you wanted it
but who needs to see that now
its so late and all we meet are strangers
so i, give in to you
each time every night
you'd win
i come in second
place it will be alrite on the night

cause im not taking part if i wont win
the windmill talent contest is looking for applicants.

I saw youth running away from you now
I saw youth running away from you now

I saw youth running away from you now
I saw youth running away from you now

I saw youth running away from you now
I saw youth running away from you now
