Miles On A Car

Rachael Yamagata

You've always been a city boy at heart
I've always loved the other life lying underneath the stairs
I need the space you only find on the back road
But you're the only thing that feels like home

Baby, it's just miles on a car
Just miles on a car
I only need a map of where you are
They'll never be a place that is too far

I want my legacy to read
Ooh, she did her best to get her lover that was needed
The best things in life don't come for free
But I'll go the distance if it brings you back to me

Baby, it's just miles on a car
I'm just miles on a car
I only need a map of where you are
They'll never be a place that is too far

And nothing ever has to be so hard
'Cause they're just miles on a car, they're just miles on the car

Just miles on a car
Just miles on a car
I only need a map of where you are
They'll never be a place that is too far

And nothing ever has to be so hard
'Cause they're just miles on a car
They're just miles on a car
They're just miles on a car
