

# Susan

## Dean Martin

Susan, the boys around the village square are courtin' Susan  
They're even wishing they could be supportin' Susan  
But every night in the pale moonlight it's Susan  
Refusing to settle down or cuddle up Susan has got that certain air the boys call supersonic  
The barbers in the town are running out of tonic  
The local romeos are at their Sunday best  
Struttin' down the avenue buzzing like the bees around Susan  
It's confusin' and amusin'  
Susan has made up her mind who's she choosin'  
Who's she's gonna be  
Susan's in love with me Susan has got that certain air the boys call supersonic  
The barbers in the town are running out of tonic  
The local romeos are at their Sunday best  
Struttin' down the avenue buzzing like the bees around Susan  
It's confusin' and amusin'  
Susan has made up her mind who's she choosin'  
Who's she's gonna be  
Susan's in love with me
