

I Like To Party (feat. Dev)

Samantha Marq

I like to party fast like a Ducatti
My karate is Ferrari I just hit them when it's naughty
Au make you shout 24 hours show's sold out
So I'm surfing on the crowd

I'ma take the crown take take the crown
I'm a rich ass bitch I don't need hold up in my mouth
And I ain't too pretty to slap a whose
So all your girls acting shitty better kiss me on my toes

I like to party party party party
I like to party party party party
We like to party party party party
I like to party party party party
I'm a party party girl

I make the rules
so Imma let it do what it do
I won't make ya choose
but Imma get drunk how 'bout you?
and I never lose
cuz I know that I'm super cool
and I'm makin moves
I'm makin m-m-m-m-m-m-m-moves

Tell the DJ turn it up
Put more liquor in my cup
cuz I wanna p-p-party until I can't get enough
don't need diamonds don't need pearls
it's just me and all my girls
and we wanna p-p-party like it's the end of the world

I like to party party party party
I like to party party party party
We like to party party party party
I like to party party party party
I'm a party party girl

This is the party where we change it up
tell the DJ to crank it up

from the window to the wall
we all want some more alcohol
all I need is cranberry juice
mixed with a lil bit of that Grey Goose
that's what it takes to make this party
uh now let's get it started

Yo it's futhamuckin party y'all
ladies feel free like it's mardi gras
hit the liquor store get your alcohol
if you're at a disco no holdin up the wall and
it's a futhamuckin party man
do the two step wit you drink in your hand
put your mind to it get lost in a trance
do that dance
like it's your last chance

If y'all like to party then clap your hands
If y'all like to party then do your dance
If y'all like to party then move your feet
If y'all like to party then chug your drink

Tell the DJ turn it up
Put more liquor in my cup
cuz I wanna p-p-party until I can't get enough
don't need diamonds don't need pearls
it's just me and all my girls
and we wanna p-p-party like it's the end of the world

I like to party party party party
I like to party party party party
We like to party party party party
I like to party party party party
I'm a party party girl
