

# Really Love

## Dâ€™Angelo and The Vanguard

When you call my name  
When you love me gently  
When you're walking near me  
Doo doo wah I'm in really love with you, I'm in really love with you  
When you look at me  
I open up instantly  
I fall in love so quickly  
Doo doo wah I'm in really love with you, doo doo wah I'm in really love with you  
I'm in really love with you  
All night beside you I'd lay  
I love you deep when you come to my bed  
Doo doo wah, I'm in really love with you  
Ooh wah, I'm in really love with you  
When you touch me there  
When you make me tingle  
When our nectars mingle  
Doo doo wah I'm in really love with you, I'm in really love  
I'm not an easy man, to overstand, you feel me  
But girl your patient with me  
Doo doo wah, I'm in really love with you, I'm in really love with you  
All night I wish for you here  
Lay your head beside my hip  
Doo doo wah, I'm in really love with you  
I'm in really love with you  
Doo doo wah, I'm in really love with you  
I'm in really love with you  
Oh how I love  
the little things you do  
I'm in really love with you
