

In the Meantime

Helmet

Earth tone suits you
So give it a smile
If I could hold your feet down
Get to know for awhile To make due is a promise
Hard to keep without help
Never taught to look in
I'm too concerned with my health Help me spread right ashes
Cow fertilized
Come down in a feed town
Strength to minimize Hold it, in the meantime
In the meantime, in the meantime
Time, in the meantime, meantime
