

When You Say My Name

Jessie James

Monday a long day
Startin' off the wrong way
Runnin' on empty
Faith and black coffee
You left early
Gotta get the bills paid
I miss your face baby
I just can't wait
'Till we're all alone
And this mad world fades away
When you say my name
Everything comes alive
Take the darkest room
And you turn on the lights
When you touch my hand
You're telling me a secret
Only we can understand
When you say my name
Say my name
Say my name
When you say my name
Say my name
Say my name
Hard times heartache
Got the strength that love makes
Somehow someway
Gonna find it someday
No matter what life brings
I know it's gonna be okay

When you say my name
Everything comes alive
Take the darkest room
And you turn on the lights
When you touch my hand
You're telling me a secret
Only we can understand
When you say my name
Say my name

Say my name
When you say my name
Say my name
Say my name
It's such a sweet kiss
My name on your lips
Oh
I can't resist it
I can't resist it
No no no
Mmm yeah
When you say my name
Everything comes alive
Take the darkest room
And you turn on the lights
When you touch my hand
You're telling me a secret
Only we can understand
Only we can understand
Say my name
Say my name
When you say my name
Say my name
Say my name
