

Legions Of The Dead

Testament

Chant incantate, see his legions march in trace
Destroy desecrate Church of lies, the priest await
Paralyzed by what they believe
To be right in this world, by fate the host of hate arose from a whirl
Sealed the earth from all it's sins from fire that he spreads
Where's your God to save you now from the hordes of the undead?
hear the locust roarThe legions of the dead invoked in this world
The legions of the dead invoked all hell on earth
Choked this world dead
Paralyzed by what they believe
To be unholy, all evil, immortal, unholy, infernal
Unholy, all evil, immortal, unholy infernal one
The legions of the dead invoked all hell on earth
