

# Bad News

Kanye West

Didn't you know, I was waitin on you  
Waitin' on a dream that'll never come true  
Didn't you know, I was waitin' on you  
My face turned to stone when I heard the news  
When'd you decide to break the rules?  
Cause I just heard some real bad news

People talk like it's old news  
I played it off and act like I already knew  
Let me ask you, how long have you known dude?  
You played it off and act like he's brand new  
When'd you decide to break the rules?  
Cause I just heard some real bad news

Real bad news [x3]

Oh you just goin' keep another, no you wont  
Oh you just goin' keep it like you never knew  
Oh you just goin' keep another love for you  
Oh you just goin' keep em like you never knew  
While im waitin on a dream that'll never come true  
Oh you just goin' keep em like you never knew  
My face turned to stone when I heard the news

Whats on the news?  
Channel cruise...
