

# On My Way to You

**Jessica Brown**

I worked a little while, in a little town in Colorado  
But the winters were just a little bit too long  
So, I decided California was the place that I'd go  
And I was gone  
Fell in love, got my heart broke down in San Diego  
I was off and driftin' any way the wind was blowin'  
That was then, way back when, I didn't have a clue where I was goin'  
No, I had no way of knowin' I was  
On my way to you, there were things I didn't understand  
I didn't see the plan but now I do  
There were no mistakes and no bad moves  
No, I wouldn't change a thing that I went through  
On my way to you  
What if I'd have stayed an extra day or left a week too early  
Who's to say my path and yours would have had a chance to cross

At the time I couldn't see the line connectin' each and every little dot  
Keepin' me from getting lost  
On my way to you, there were things I didn't understand  
I didn't see the plan but now I do  
There were no mistakes and no bad moves  
No, I wouldn't change a thing that I went through  
On my way to you  
I'm glad I didn't chance direction, no  
Not one minute or a second  
On my way to you, there were things I didn't understand  
I didn't see the plan but now I do  
There were no mistakes and no bad moves  
No, I wouldn't change a thing that I went through  
On my way to you
