

# Walk On

## Haste the Day

Walk on past me  
Never say my name again  
I see through you  
Your lies will no longer stand Walk on past me  
Never say my name again  
I see through you  
Your lies will no longer stand Beauty fades  
What's inside shines through  
Offered all and gave me nothing Suffocation setting in  
I can't breath when you're around  
Believed lies, I see through you Somehow you see me all too well  
And there's no hiding behind lies  
If I could only run fast enough  
Now I'm running out of time Walk on past me  
Never say my name again  
I see through you I see right through you Somehow you see me  
But you see me all too well  
I see through you Walk on past me  
Never say my name again  
Walk on past me Walk on past me  
Never say my name again  
I see through you Somehow you see me all too well  
And there's no hiding behind lies  
If I could only run fast enough  
Now I'm running out of time Somehow you see me all too well  
And there's no hiding behind lies  
If I could only run fast enough  
Now I'm running out of time
