

Talk With You

Fleetwood Mac

Written by danny kirwan. Hey woman, let me have a talk with you
Hey girl, let me have a talk with you
Now you've taken all my money
What are you gonna do A man's gotta give a woman
Everything she needs
A man's gotta give a woman
Everything she needs
Don't give that woman no more money
If that good girl don't say please A man's gotta give a woman
Everything she needs
A man's gotta give a woman
Everything she needs
Don't give that woman no more money
If that good girl don't say please
