

Do What I Do

Cassie Davis

Mmm, Uh uh uh mm mm, Yeah
Can't believe my foolishness
I'm so much smarter than this
So it all end now
Tell myself that it's over now
I think I'm strong, but I'm just weak
These promises I fail to keep
And I only hurt myself
Cause I made them to myself And I did it again, what I said I wouldn't do
Again, last time, again
I can say it's not my fault but it is who am I kidding
Don't wanna do it ever again Why is it that I do
These things I don't want to
Why do I do what I do when I do it?
See I don't want to but I continue into it
Deep down I know it's wrong still I end up singing
Why do I do what I do when I do it?
See I don't want to but continue into it. This time's gonna be different
I'm gon' do my best to stay the
Straight and narrow, and if His eye is on the sparrow
That means surely He is watching me
More to the point I can see
I need to change some things
Rearrange some things Why do I do what I do when I do it?
Why do I do what I do when I do it?
I don't want to but continue into it. Why is it that I do
These things I don't want to
Why do I do what I do when I do it?
See I don't want to but I continue into it
Deep down I know it's wrong still I end up singing this song
Why do I do what I do when I do it?
See I don't want to but continue into it.
