

Turn the Memories Loose Again

The Everly Brothers

I dont look like that picture
But I know that its me
And I dont sound the same way I did then
But I can sing old songMade famous way back when
And I can turn the memories loose again
I never thought of money
They just told me it was thereA brand new car for a brand new millionaire
But fame can be a feather thats caught up in the wind
And I can turn the memories loose again
Dreams that disappeared can come alive todayThe love you thought was gone, still lingers in a song
Ive seen the world through windows from buses, cars and planes
Success can be a freedom or a chain
I dont regret one moment, all I did was singAnd I can turn the memories loose againDreams that disappeared
can come alive today
The love you thought was gone, still lingers in a song
I dont regret one moment all I did was singAnd I can turn the memories loose again
And I can turn the memories loose again
