

Wicked Ways

Five Finger Death Punch

I should have seen this from a mile away,
i should have never let you get that deep inside,
your an actress i cant believe a word,
you take anything to get anywhere in life,
stumble back to where you came from,
wide awake and falling on your face,
you got an evil wicked way of saying i love you,
i'd love to
tear away from everything you are you got an evil wicked way about you
i hate you
live a virus that spread throughout my viens, you a incurable such a waste of time,
your an angel but only in your head youll hurt anyone to get anything in life,
slither back to where you came from,
wide awake and falling on your face,
you got an evil wicked way of saying i love you,
i'd love to
tear away from everything you are you got an evil wicked way about you
i hate you
who do think you are x9
wide awake and falling on your face,
you got an evil wicked way of saying i love you,
i'd love to
tear away from everything you are you got an evil wicked way about you
i hate you
who do you think you are x4
