

# Make Love to Me

June Christy

Instead of making conversations  
Make love to me  
Make love to me, my darling  
While there is still a mood Must I extend an invitation  
To make love to me  
Make love to me, my darling  
Tonight will end so soon There are moments  
When my lips adore addressing you  
But tonight my lips are only for  
Caressing you but how about you Before the mood that I'm in changes  
Make love to me  
Make love to me, my darling  
I'm so in love with you
