Waves

[Kat DeLuna](#)

[Verse 1]
Caught up into your vibe
Your love is do or die
You got me sinking under
I'm all out of air now
You're the beat inside this song
And your current's way too strong
I'm sinking under
Catch me baby, on the way down[Pre-Chorus]
Straight into the ocean
Pulling me in closer
Just say you wanna go there
Baby, baby. baby
[Chorus]
I love it when the lights go down
And the heat turns up, got you near me baby
I love it when we go so fast
And my heart goes crash, drumming to your
Drumming to your
And I don't wanna be safe[Verse 2]
Yeah, it's more than physical
Stuck in the undertone
It's out of my control
We're going deeper right now[Pre-Chorus]
Straight into the ocean
Pulling me in closer
Just say you wanna go there
Baby, baby. baby[Chorus]
I love it when the lights go down
And the heat turns up, got you near me baby
I love it when we go so fast
And my heart goes crash, drumming to your
Drumming to your
Drumming to your
Drumming to your
Drumming to your
And I don't wanna be safe[Bridge]
Underneath the surface like
Nothing else could feel this right

You're in my head, in my heart
Guess I knew it from the start
Underneath the surface like
Nothing else could feel this right
You're in my head, in my heart
Guess I knew it from the start[Chorus]
And I don't wanna be safe
I love it when the lights go down
And the heat turns up, got you near me baby
I love it when we go so fast
And my heart goes crash, drumming to your
Drumming to your
Drumming to your
Drumming to your
Drumming to your
And I don't wanna be safe
