

Raindrops

Armor for Sleep

You appear like raindrops
And live like you sink through
The streets that you fall on
The cars that slip on you All of this for just one night Suffocate me, all you need
I won't breathe but it's okay
You'll be somewhere around me
And I won't need air The clouds will break my house
And throw me from my room
I'll drown in the rainfall
And float till I find you You appear like raindrops
And live like you sink through
The streets that you fall on
The cars that slip on you All of this for just one night Suffocate me, all you need
I won't breathe but it's okay
You'll be somewhere around me
And I won't need air And I won't need air
And I won't need air
And I won't need air
And I won't need air Suffocate me, all you need
I won't breathe but it's okay
You'll be somewhere around me
And I won't need air Suffocate me, all you need
I won't breathe but it's okay
You'll be somewhere around me
And I won't need air
