I Almost Called Your Name

Jeannie C. Riley

We were dancin' and he led just like you used to
He squeezed my hand and he teased me just like you used to
And so close to my lips the words came
That I almost yes I almost called your nameYes I almost called your name
In so many ways you both are the same
The only difference in the two is that I I still of you
Oh yes I kissed him but I almost called your name
[guitar]
Yes I almost called your name...
Yes I kissed him but I almost called your name
