

# Nervous

Christina Milian

I dont even mind when I see you lookin at me  
Givin me a sign and your wishin that you had me  
Contaplatin over thinkin every single line  
Sendin me a drink thinkin that I might ablige  
And your lookin' at my dress and I got you in a tootsi  
Wanna make a move better hurry cuz I'm busy  
Cherry lip gloss I can see you wanna kiss me  
Do I make you nervous baby  
Oh oh come on in this room and shut the door  
We're laughin playin rollin on the floor  
Imagine it was all that  
And you can make me call back  
Make you have a love attack  
Do I make you  
Do I make you  
Do I make you nervous  
I'm teasin and I'm flirtin  
Baby do I make you nervous  
I know (your nervous)  
I know (your nervous)  
I know (your nervous)  
Do I make you nervous  
Do I make you  
Do I make you  
Do I make you nervous  
I'm teasin and I'm flirtin  
Baby do I make you nervous  
I know (your nervous)  
I know (your nervous)  
I know (your nervous)  
Do I make you nervous  
Stairin in my eyes like you wanna know a secret  
Lookin at my body wanna know if you can please it  
See you drippin sweat and I know that I'm the reason  
Its unfair and you cant hide it  
Losin' your breath and anit nothing left  
Stumblin and trippin over every step  
Ooo I like it when you tell me I'm the best

I can tell your nervous baby

Oh oh come on in this room and shut the door

We're laughin playin rollin on the floor

Imagine it was all that

And you can make me call back

Make you have a love attack

Do I make you

Do I make you

Do I make you nervous

I'm teasin and I'm flirtin

Baby do I make you nervous

I know (your nervous)

I know (your nervous)

I know (your nervous)

Do I make you nervous

Do I make you

Do I make you

Do I make you nervous

I'm teasin and I'm flirtin

Baby do I make you nervous

I know (your nervous)

I know (your nervous)

I know (your nervous)

Do I make you nervous

Do I make you

Do I make you

Do I make you nervous

I'm teasin and I'm flirtin

Baby do I make you nervous

I know (your nervous)

I know (your nervous)

I know (your nervous)

Do I make you nervous

Do I make you

Do I make you

Do I make you nervous

I'm teasin and I'm flirtin

Baby do I make you nervous

I know (your nervous)

I know (your nervous)

I know (your nervous)

Do I make you nervous
