

# They Can't Buy the Sunshine

## Turin Brakes

All and all it's been a blast  
Fame and fortune never lasts  
We'll take refuge in the sound  
They burned our churches to the ground But they can't buy the sunshine  
They can't buy the sunshine  
They can't buy the sun  
But they can't stop the sunshine  
On the sun, the sun, the sun We may have sold our very souls  
The ghosts inside the radio  
They warned us once and they told us twice  
This life's never very nice They can't buy the sunshine  
They can't buy the sunshine  
They can't buy the sun  
But they can't stop the sunshine  
On the sun, the sun, the sun The credit card skyline rises high  
Crushing the sky and multiplies  
They bind up souls to fill their holes  
We know the one thing they don't know They can't buy the sunshine  
They can't buy the sunshine  
They can't buy the sun  
But they can't stop the sunshine  
They can't stop the sunshine  
They can't stop the sunshine  
On the sun, the sun, the sun Shine, shine on the sun, the sun, the sun  
Shine, shine on the sun, the sun, the sun  
Shine, shine on the sun, the sun, the sun  
Shine, shine on the sun, the sun, the sun
