

Wasted Love

Marie Serneholt

So you say there's nothing wrong
Then tell me why I don't believe you

Maybe you sound just to sincere
Maybe I just saw right trough you

Cause who's the girl

Walking there by your side

The way she smiles I just know

I wasted love

I wasted love

I wasted all my emotions on you

I wasted love

So here the walls come tumbling down
A heart's breaking into a thousand pieces

I might be damaged but I'll be Ok

Everything happens for a reason

Who's the girl

Walking there by your side

The way she smiles I just know

I wasted love

I wasted love

I wasted all my emotions on you

I wasted love

Everything happens for a reason

Who's the girl

Walking there by your side

The way she smiles I just know

(I can tell by the way you smile, yeah)

I wasted love

I wasted love

I wasted all my emotions on you

I wasted love
