Radio #9

Craig Cardiff

rachel calls up to say its over
says its time to get my act together
i say would i could were i clever
rachel calls up to say its overall the stories from the road
all the people that you've met
all the things you said you'd do
are all the things that you never didwe are experiencing signal loss
houston i think we've got a problem
houston please come in, transmit
i need to be sure you're receiving (tom's cough)why don't you radio?
why don't you radio?
why don't you radio home?old bars alcohol and cigarettes
late to rise late to show and late for bed
you say you're this self contained unit
having someone around would only ruin itall the stories from the road
all the people that you've met
all the things you said you'd do
are all the things that you never didwe are experiencing signal loss
houston i think we've got a problem
houston please come in, transmit
i need to be sure you're receiving (tom's cough)why don't you radio?
why don't you radio?
why don't you radio home?
