

Brand New Life

Nine Lashes

I keep my eyes closed
I cannot feel this heart inside my chest
Is it alive at all?
Or is it groats of steel
So quiet.
I'm calling out to you with everything
Open my eyes to see the light of day
Created me, My heart,
That only knows your name.
Cos I've been looking for a brand new life
I could never find a way
Only your love can bring the day from night.
Come & wash it all away
Bring this heart to life
Bring this heart to life Did I despair your fade?
I need it burning on the darkest night
Lord, you are the life in me
Mending my broken soul
I'm calling out to you with everything
Open my eyes to see the light of day Created me,
My heart,
That only knows your name.
Cos I've been looking for a brand new life
I could never find a way
Only your love can bring the day from night. Come & wash it all away
Bring this heart to life
Reach into my soul
I'm calling out for you There's no other name
There's no other name
Jesus, shine your light on me
Cos I've been looking for a brand new life
I could never find a way
Only your love can bring the day from night. Come & wash it all away
Bring this heart to life
Bring this heart to life
Bring this heart to life
Bring this heart to life
