Witch's Brew

Peter Cincotti

Theres no more to drink
But it doesnt really matter
Cause one things for certain
Nobodys leaving nowI like the room
I like you even better
Black lacy curtains
Cant wait to pull them downShes winding in my arms
Shes whispering my name
With the fire in her sigh
And her open gypsy lips
Say kiss the world goodbye
Its a witches brew tonightAnd if I run away
Youre gonna come and haunt me
So go on and leave me
Where the children should never goYou lock me up in chains
You got me if you want me
Like Im drunk on the devil
And the devils got the taste of you
Its a witches brew tonightYou touch me like a thief
Crawling trough a window
But stealing is easy
The hard parts the getawayUnplug the phone
And disconnect the cable
I wanna make a movie
Like nobodys ever madeShe tells me Im insane
She reaches up her hands
And she closes both my eyes
She tells me Im the rain
And shes gonna drink it dry
Its a witches brew tonightAnd if I run away
Youre gonna come and haunt me
So go on and leave me
Where the children should never goYou lock me up in chains
You got me if you want me
Like Im drunk on the devil
And the devils got the taste of you
Its a witches brew tonightAnd if I run away
Youre gonna come and haunt me
So go on and show me

Where the root of desire growsYou lock me up in chains
You got me if you want me
Like Im drunk on the devil
And the devils got the taste of you
Oh, its a witches brew tonight
Its a witches brew tonight
Oh, its a witches brew tonight
