

Here She Comes

Jonas

She's Fine on the outside
So fine make you wanna cry
All of the boys want a piece of her time
All of the girls want her out of their lives

Ready
Oh now here she comes
Like a comet racin through the night
Here she comes like
A crazy little sattelite
And she burns anybody drawn into her light
you cant hold on no you cant hold on
to her

Im fine on the inside
til the moment she arrives
how does she know after all of this time
finally got her face out of my mind

Ready
Oh now here she comes
Like a comet racin through the night
Here she comes like
A crazy little sattelite
And she burns anybody drawn into her light
you cant hold on no you cant hold on
to her

Im her moth to her flame
so addicted to this pain
watch me stand in line
just to get burned again

hey yea yea
Yea

here she comes

Like a comet racin through the night
Here she comes like
A crazy little sattelite
And she burns anybody drawn into her light
no you cant hold on you cant hold on
to her

Here she comes
Like a comet racin through the night
Here she comes like
A crazy little sattelite
And she burns anybody drawn into her light
you cant hold on no you cant hold on
you cant hold on you cant hold on
to her
