

Adore You (Elicit Remix)

[Lisa Barbuscia](#)

I feel you in my sleep
I breathe your breath
I hear you speak
All I miss is the sleep
You're an obsession clouding my mind
Why don't you make up your mind
Walk with me I'll suggest the place
Only room for two
I've been planning all the things
That I'll do to you I'll adore you
I'll adore you
I'll adore you I step onto the edge
Jump with me, into the sea
I have kissed you relentlessly
I feel your naked skin touching mine
Why don't you make up your mind
Walk with me I'll caress your skin
I'll be there for you
I've been planning all the things
That I'll do to you I'll adore you
I'll adore you
I adore you
[REPEAT 1x] Until you tell me to
I'll never stop, wanting you
Feeling you, breathing you
I have given all of me
All I need is you
To adore you I'll adore you
I adore you
I'll adore you
I'll adore you
I adore you
