

# Impossible

Daniel Merriweather

Oh uh, oh uh ..

I could do anything  
I did say anything  
I would try anything  
For your love  
I will run anywhere  
I would go anywhere  
I will walk anywhere  
For your love

Girl I probably said some corny lines  
That I know you've heard a thousand times  
I would do anything and everything to express my love with you  
I don't care what I gotta do

A thousand armies couldn't stop me no  
Cause there ain't nothing impossible  
There ain't nothing nothing  
Nothing impossible for your love, your love

No matter what people say  
No matter how far you stray  
I would go all the way  
For your love, your love  
No matter how great or small  
No matter how tall the wall  
Winter spring summer fall, yeah  
I'll do it all for your love  
Your love

And I know I said some corny lines  
That you probably heard a thousand times  
I would do anything & everything to express my love with you  
I don't care what I gotta do

A thousand armies couldn't stop me no  
Cause there ain't nothing impossible  
There ain't nothing nothing  
Nothing impossible for your love your love, no no

Stormy weather couldn't stop me no  
Cause there ain't nothing impossible  
There ain't nothing nothing  
Nothing impossible for your love, your love, your love

There is nothing nothing, nothing, nothing nothing nothing impossible  
Nothing nothing nothing nothing nothing impossible  
Oh no, nothing, nothing for your love, your love

There ain't nothing nothing, nothing, nothing nothing nothing impossible  
Nothing nothing nothing, nothing impossible  
Oh no, nothing, nothing for your love, your love, your love, your looove

A thousand armies couldn't stop me no  
Cause there ain't nothing impossible  
There ain't nothing nothing  
Nothing impossible for your love, your love  
Stormy weather can't stop me no  
Cause there ain't nothing impossible  
There ain't nothing nothing  
Nothing impossible for your love, your love, your love
