

# Baby Come Back

Serena Ryder

Baby come back  
Come home  
How could you leave me on my own  
What did I do  
What did I say  
How did I make you go away I got everything you need  
You said you would never leave  
Will you lie and tell me please  
Don't you leave me on my knees You're the one that I belong to  
You're the one that I let go  
You're the fire escape I run to  
Fate's a swallowing me whole Baby come back  
Come home  
Did you mistake me for someone  
Somebody else  
Someone like me  
Who did you think that I would be I am so much more than you  
Could ever know what to do  
I'm the fire, I'm the earth  
It was you who told me first You're the one that I belong to  
You're the one that I let go  
You're the fire escape I run to  
Fate's a swallowing me whole You're all I have  
My heart's in your hands  
Don't play with me  
Just stay with me  
You're all I have  
My heart's in your hands  
Don't play with me  
Just stay with me  
You're all I have  
My heart's in your hands  
Don't play with me  
Just stay with me  
Just stay Baby come back  
Come home  
Baby come back  
You're the one that I belong to  
Come home

You're the one that I let go  
You're the fire escape I run to  
Fate's a swallowing me wholeJust stay
