

# At War With the Sun

## The Big Pink

Up for too long  
At war with the sun  
A crown of stars that we all wish upon  
And you whisper to me  
Are we out of time  
And if so then don't let go.  
Show me where teardrops run  
Ragged bloom we all let loose on  
Hands disappear, pull you close  
Shoot out lights for all our pleasures[chorus]  
Young hearts know nothing but say it all  
Celebrate no control  
But is it enough to realize your love  
And miss us when we're gone.Live for the words  
That we've sung  
And don't let goNo one hears 'cause no one cares  
Until we fall over the edge  
Surrender your thoughts  
The odd ones out  
And I said we'd meet tonightInto the dark, and out of this world  
Blow a kiss and burn it down  
Together we'll live, turn to dust  
Through the smoke and into the sun[chorus]To feel it  
See it  
On it  
I'm on it[chorus]
