

# Give It To 'em

## Jaden Smith

Ah, I said ah  
Ah, said ah  
I like this

Hot spitta of the century  
Said you wanted hot bars  
So elected me  
Young,black, with accessories  
And I'm doing well, never seen a penitentiary  
Cause they can't sentence the greatest MC they ever seen  
No I'm not, but if you gone battle me  
then you better be  
Still got a couple me  
Still in elementary  
Joke about too blow  
Eh let em be  
Just 13 tryna live my life  
Got in trouble for it once, but I just did it twice  
Man there goes Will's kid, walking in the Hilton  
And my name's Jaden  
Get it right!  
But homie I'm just tryna spread some light  
Ah, so I can go to sleep at night  
Cause right now I'm really restless  
Flirting with my extras  
Worrying bout', who is on the guest list  
Who's rocking with, next is?  
Who's verse is the best  
is,this a competition?  
Cause I'm surely gone wreck this

Ah,  
Ain't no doubt about it  
They saw I was at the top  
So all them jokers rerouted  
All these people crazy  
This room is getting so crowded  
It's just because we are famous and you don't know nothing bout' it  
Nothing has a price tag

In the back of our car, soon as I say I like that  
You can take the fame  
Lil homie just give the mic back  
After you spit your optional verse  
Cause they might clap  
Yeah girl I know you like that  
Didn't know a young boy kill it on the right track  
Had some tricks up my sleeve, they was nice raps  
I just wanna be there, when you when you taking off that night cap  
Yeah, so call me if you trying to kick it  
I'll be with Mateo living life how all the bosses live it  
Probably on Rodeo buying seam, but the cost is different  
Louie is the tail, but I gotta rock the Carson's with it  
Skater at the heart, artist at the soul  
Lustin' for these women, that's the hardest to control  
And if you meet me once  
I'm not modest  
I'm just cold  
I'm so hot the sun is old  
I'm not honest, I'm just bold  
Give it to em'  
Misfits
