[Verse 1]The root of all evil, is sorta like The Roots new sequel

It's slavery

Know Hailey need a sequence if they need it

Not even

But seemingly believe it though

See it's simply greed, it's such a need to say your broke

Got fixation for that Home Simpson phrase

Or

Prior to the re, mi, fa sol, la te

The optimistic, pro on the lottery

But more than not, and with proly a whole lot less than the start

It's all for the thought of havin' more than required

A smorgasbord to a dieter

Sure it's hard to get it, but to have it is to fight it

If you fight it then you own it and you have it then it's yours

Huh, a metaphor of course

But when you run your course you should correspond accordingly

Then keep your change like an oink machine

Then never touch it, like your goatee it's grown for years

Asalaam Alaikum

[Chorus - Daniel Merriweather]It's like I've got you one day, and then you go

You're like the sun and winter, my pot of gold

All of the things you pay for, all the things I sold

So I could find my rainbow, my pot of gold

[Scratch Chorus x2]"It's a dirty game and rule #1" Jadakiss 'The Set Up (Remix)'

"The cream"

"Rules everything around me" - Wu-Tang 'C.R.E.A.M.

"It's a dirty game and rule #1" Jadakiss 'The Set Up (Remix)'

"Dolla dolla bill y'all" - Wu-Tang 'C.R.E.A.M.'

[Verse 2]The root of all evil

Now most of us be rootin' for this evil

Kaiser Soze, we never see him

The face is replaced by an image, it happens when you spend it

Ironically it subs like a hero  
Sub like zero  
Subs like a teacher that ain't even supposed to be here  
Let me hear that beat, air  
Don't it sound so Premier?  
It sound like, somethin' you niggas need to hear  
Women be here  
They be jockin'  
And they Hawkin'  
I call them hoes Josh Smith  
And it rules everything around them  
You ain't gettin' dough, don't even come around them  
She needs a lot of goods, she needs some Prada  
And her little baby daughter really love them Harry Potter books  
This is the root of all evil  
The more earned they yearn for, the more lethal  
The more small people at your door like please can I receive  
Cause I for sure need it  
Like I'm supposed to be a machine they all reach in  
But I'm all for my poeple  
But hold up... I'm dreamin'  
[Chorus - Daniel Merriweather x2]It's like I've got you one day, and then you go  
You're like the sun and winter, my pot of gold  
All of the things you pay for, all the things I sold  
So I could find my rainbow, my pot of gold
