

# We Could Be Better

## Janine and the Mixtape

Just think I just threw out everything that I own  
It's easier to not remember  
But here I am, still got your pictures on my phone  
On my phone, lookin' at them when I'm alone  
You're doin' good and I'm doin' fine  
Now I'm doin' great but you're on my mind  
We're better this way, maybe we're better this way  
Tell me why is that so hard to say?

You're not mine and I'm not yours  
But I wish you were, and I wish I was  
Turn back the clock, baby I'll be so much better  
We could be better

I wish you were, and I wish I was  
I wish we could, and I think we should  
I remember lookin' at you, wanting you to touch  
But not too much, I don't wanna go too far and it cost up  
You put your arm across my back, left to right shoulder  
And you kissed me, do you remember?  
Do you remember my heart beatin' through my chest for you  
For the first time?  
Do you remember feelin' my heart beat through my chest for you?

Turn back the clock, baby, I'll be so much better  
Better, better, better  
Turn back the clock, baby, I'll be so much better  
Better, better

Do you remember my heart beatin' through my chest for you  
For the first time?  
Do you remember feelin' my heart beat through my chest for you?
